Attachment List

- Bluetooth Headset x1
- Type-C Charging Cable x1
- Audio Cable x1
- Microphone Boom x1
- User Manual x1

Technical Specifications

Product Model: Cub-100BT
 Speaker Sensitivity: 118 ±3dB at 1kHz
 Impedance: 32Ω ±10%
 Frequency Response: 20Hz ~ 40kHz
 Microphone Sensitivity: -38 ±1dBV/Pa
 Bluetooth Version: V5.4
 Battery Capacity: 1000mAh
 Bluetooth Distance: 10 meters
 Playback Time (ANC OFF): About 100 Hours
 Playback Time (ANC ON): About 60 Hours
 Charging Time: About 3 Hours
 Charging Interface: USB Type-C
 Input Voltage: DC 5V ±1A
 Noise Reduction Depth: Up to -38dB
 Product Dimensions (L x W x H): 183.12 x 91.2 x 212.82 mm
 Total Weight: About 285 grams (excluding MIC)

Button Functions

- ①. Multi-Function Button (MFB)/Power On/Off/Play/Pause/Answer/Hang Up/Volume Up/Volume Down/Previous Track/Next Track/Clear Pairing
- ②. ANC Button/ANC Mode Switch/Voice Assistant On/Voice Assistant Off
- ③. Indicator Light
- ④. 3.5mm Audio Jack
- ⑤. Microphone
- ⑥. Type-C Charging Port
- ⑦. Mute Button

Multi-Function Button (MFB)	
Power On	Press and hold for 2 seconds
Power Off	Press and hold for 5 seconds
Play/Pause/Answer/Hang Up	Single click
Reject Incoming Call	Press and hold for 2 seconds
Previous Track	Triple click
Next Track	Double click
Volume Up	Rotate left
Volume Down	Rotate right
Clear Pairing	Press and hold for 8 seconds while powered off

Active Noise Cancellation (ANC) Button	
Switch ANC Mode	Single click
Activate/Deactivate Voice Assistant	Triple click

Microphone Boom Button	
Mute On/Off	Single click

LED Indicator

- Pairing Mode: Red and blue lights flashing alternately
- Pairing Successful: Blue light flashes for 1 second
- Charging State: Red light stays on
- Charging Complete: Blue light stays on

Bluetooth Pairing

1. Keep the Bluetooth headset and the mobile phone (or other connected devices) are within 1 meter (3 ft.) of each other; the closer the distance, the easier the pairing.
2. With no external devices connected, press and hold the MFB until the red and blue light flashes rapidly, indicating that the headset is in pairing mode.
3. Enable Bluetooth on your mobile phone (or other Bluetooth device), and begin scanning for devices. Your mobile phone will list all detectable Bluetooth devices. Select the headset labeled "Cub-100BT" from the available Bluetooth devices list. When the blue light flashes for 1 second, it indicates a successful pairing.
4. Bluetooth Auto-Reconnect:
 - After initial pairing, the headset automatically reconnects to the last connected device on subsequent uses.
 - If the connection is lost but the device returns within the effective range within 5 minutes, the headphones will automatically reconnect.

Active Noise Cancellation (ANC)

In powered-on state, press the ANC button once to enter transparency mode, press again to switch to ANC ON mode, and press once more for ANC OFF.

Charging the Headset

1. Connect the Type-C charging cable provided with the headset to the charger.
2. The indicator light will turn red during charging.
3. When the headphones are fully charged, the blue light will stay on. Unplug the charger from the power outlet.
4. Use only charging cable approved by SuperEQ. Unauthorized or non-company charging cable may damage the headset, or in extreme conditions, cause explosions, may void the product warranties.
5. Repeated charging and discharging of the headset will lead to a decrease in battery performance over time, which is a normal occurrence for all rechargeable batteries.

Safety Precautions

1. This product is not a toy. Children should use the headset only under adult supervision.
2. Do not place the device in environments that are too hot or too cold (below 0°C/32°F or above 45°C/113°F).
3. Keep the device's indicator light away from the eyes of children or animals.
4. To prevent hearing damage, avoid using the headset for long periods at high volumes for extended periods of time.
5. For your safety, please be mindful of traffic conditions when using the headset while driving or walking.
6. To avoid interference with a pacemaker, do not wear or place the headset within 10 cm (4 in.) of the device.
7. Do not use Bluetooth devices during thunderstorms, as they can cause the device to malfunction and increase the risk of electric shock.

Multi-device

The wireless Bluetooth headset supports connecting to two devices simultaneously. Please complete the pairing process with the first device first, then turn off the Bluetooth function on the first device. Repeat the pairing steps with the second device. After successfully connecting the second device, turn the Bluetooth function on the first device back on. At this point, both devices will be connected to the headset simultaneously.
